Notes Applicable to Table of Joint Rates:

Note 1: As set forth in the underlying Centurion local tariff, Tariff No. 13, a surcharge of \$0.3970 per barrel will be applied in addition to the applicable rate set forth in the Table of Joint Rates above. The surcharge, which commenced on March 2, 2015, will apply until Centurion collects the surcharge on a total of 3,591,981 barrels transported on the west leg (*i.e.*, the Judkin’s leg) of Centurion’s Caprock Gathering System.

Note 2: The applicable rate will be applied to those barrels that fall within each specific Volume Tranche based on average daily barrels shipped by Shipper during a month. Specifically, the Base Rate Volume Tranche would apply for the first 1,500 bpd shipped by a Shipper, the Tier 1 Rate Volume Tranche would apply for the barrels 1,501 to 3,000 bpd shipped by a Shipper, and the Tier 2 Rate Volume Tranche would apply to any barrels in excess of 3,000 bpd shipped by a Shipper. An example illustrating the application of rates under this tariff is shown below:
