ITEM 80 Rates

The rates published in this tariff are for the intrastate transportation of Ethane through the Ethane pipeline system of Energy Transfer Mont Belvieu NGL Pipelines LLC (Carrier), in accordance with the Ethane Specifications set forth in Item 85 below.

Committed Rates (Note 1)

FROM (Receipt Point, County)	TO (Delivery Point, County)	Twelve Month Period Volume Incentive Levels (in Barrels) (Note 2)	RATE (Price per Barrel in Dollars per Barrel) (Note 3)
For the First 10 contract years as set forth in the TSA			
ET NGL Mont Belvieu Facility, Chamber County, Texas	Equistar Channelview North Plant, Channelview, Harris County, Texas	Tier One: Barrels 0 to and including the volume equal to the Tier One Annual Commitment.	[I] \$0.4628
		Tier Two: All Barrels in excess of the Tier One Annual Commitment Volumes but less than the Annual Minimum Volume Commitment.	[I] \$0.3637
		Tier Three: All Barrels in excess of the Annual Minimum Volume Commitment.	[I] \$0.2078
For each contract year after the first 10 as set forth in the TSA			
ET NGL Mont Belvieu Facility, Chamber County, Texas	Equistar Channelview North Plant, Channelview, Harris County, Texas	Tier One: Barrels 0 to and including the volume equal to the Tier One Annual Commitment.	[I] \$0.4157
		Tier Two: All Barrels in excess of the Tier One Annual Commitment Volumes but less than the Annual Minimum Volume Commitment.	[I] \$0.3637
		Tier Three: All Barrels in excess of the Annual Minimum Volume Commitment.	[I] \$0.2078

Non-Committed Rates

FROM (Receipt Point, County)	TO (Delivery Point, County)	RATE (Price per Barrel in Dollars per Barrel) (Note 3)
ET NGL Mont Belvieu Facility, Chamber County, Texas	Equistar Channelview North Plant, Channelview, Harris County, Texas	[I] \$1.08

Note 1: The Committed Rates are available to any Shipper for the transportation of Ethane from the Receipt Point to the Delivery Point making a “ship or pay” annual minimum volume commitment greater than or equal to 75,000 Barrels per Day per 12 Month period (the “**Annual Minimum Volume Commitment**”)

for a term greater than or equal to 10 contract years pursuant to and subject to the terms and conditions of a fully executed TSA with Carrier entered into on or before February 1, 2018. The applicable deficiency fees will be set forth in the TSA.

Note 2: Each year under this program commences on the first day of a contract year pursuant to a fully executed TSA with Carrier, with the rates governing being based on the period during which the delivery is made. The “**Tier One Annual Commitment**” means: (i) with respect to the first 10 contract years, 55,000 multiplied by the number of calendar days in such contract year; and (ii) with respect to each contract year thereafter 45,000 multiplied by the number of calendar days in such contract year.

Note 3: Unless otherwise provided in a fully executed TSA with Carrier, rates are subject to automatic increase each July 1 by multiplying the then current rate by the PPI Escalator (as defined below), rounded to the nearest hundredths of a cent; provided, however, that in no event shall a fee ever be decreased, accordingly no such calculation will be made for any year when the PPI Escalator would have the effect of decreasing the fees. “**PPI Escalator**” means the sum of (a) one, plus (b) a fraction the numerator of which is the PPI (as defined below) for the latest available month that is no longer subject to revision prior to the date on which the adjustment is being made, and the denominator of which is the PPI (using the same base month) for the corresponding month in the preceding calendar year; provided however, that in no event shall the adjusted Transportation Fees for any year be less than the Transportation Fees for the prior year. “PPI” shall mean the Producer Price Index for Industrial Commodities less Fuels (WPU03T15M05). Should the PPI be discontinued, it will be replaced by the index specified by the applicable publisher to be the replacement index therefor, or, if no replacement index is specified by the applicable publisher, the Carrier shall determine a replacement index which uses a reasonably similar calculation methodology as determined in Carrier’s sole discretion.

ITEM 85 Ethane Specifications

The Ethane that Carrier will accept for transport shall meet the “Ethane Specification (Purity Ethane)” published, and updated from time to time, at: www.energytransfer.com (currently published under Operations, Energy Transfer Partners (ETP), Liquids Transportation and Services, Tariffs, Energy Transfer Mont Belvieu NGL Pipelines LLC Tariffs and product specifications, Purity Product Specifications, or a successor thereto) (such specifications, the “**Ethane Specifications**”).
